I am a hard working individual with many years of CNA experience under my belt. Throughout those years I have gained many skills when it comes to customer service, data entry, and time management. I am a great multitasker and have the ability to work well under pressure. I invest myself greatly when it comes to my job whatever the position may be and I am a great team player. Finally I am willing to step up to leadership roles or positions if need be to steer others the right way.
